

# Job Title: Python Lead

**Employment Type:** Full-time

**Work Type:** On-site

**Job Level:** Mid-Senior Level

**Openings:** 4

**Interview Date:** 25th October 2024 (Online Interview)

**Experience Required:** 0 to 1 year

**Industry:** MNC

## Who is this for?

We are looking for a **Python Lead** with hands-on experience in key technical tools and a collaborative mindset to join our dynamic team. This role requires proficiency in Project Management tools like JIRA, source control management using Git, and Agile Development using Scrum. Additionally, you will be involved in Continuous Integration/Continuous Deployment (CI/CD) processes, making a solid understanding of DevOps practices essential.

## Key Responsibilities:

- Lead and develop backend solutions using **Python** with a focus on **Flask** and **SQLAlchemy**.
- Design, develop, and optimize databases (MySQL, MSSQL Server).
- Manage data caching using **Redis** to improve system performance.
- Collaborate with cross-functional teams, working closely with front-end developers to integrate **HTML, CSS, JavaScript, jQuery, and AJAX**.
- Maintain a clean and efficient codebase using Git for source control.
- Drive projects through Agile Development practices (Scrum).
- Facilitate Continuous Integration and Continuous Deployment pipelines.

## Skills & Experience:

- Proficiency in **Flask** and **SQLAlchemy**.
- Experience with relational databases (**MySQL, MSSQL Server**).
- Understanding of front-end technologies (**HTML, CSS, JavaScript, jQuery, AJAX**).
- Familiarity with **Redis** for caching.
- Knowledge in **Git** for source control and **JIRA** for project management.
- Agile Development experience using **Scrum**.
- Understanding of **CI/CD** practices.

If you are passionate about developing robust software solutions and thrive in a fast-paced environment, this role could be an excellent fit for you!
